The Original - Still The Best

Jameson built the first fiberglass poles in 1956. Today, they are the preferred pole of professional arborists and telecommunication linemen.

Every job is different. Jameson has developed an extensive line of poles to ensure you have exactly what you need to do your job.

Building on a commitment to quality, Jameson offers a variety of pole and hand tools designed for professionals in line clearance and landscaping.

**Notice**

The information in this catalog is effective September 2018 and supersedes all previous catalogs. Since product improvement is a continual process at Jameson, specifications are subject to change without notice.
Jameson introduced the first fiberglass lay-up sticks in 1956 to meet the needs of telecommunication linemen. The strength and durability of fiberglass proved indispensable when lifting leak detection equipment overhead and soon replaced wooden poles as the industry standard.

Today, Jameson poles are available in a variety of configurations with tools and accessories to serve telecommunication linemen, professional arborists and landscapers. By consistently providing the highest quality fiberglass poles, Jameson remains the professional’s choice for line clearance and tree care.

**Universal Ferrules And Accessory Adapters Provide Ultimate Versatility**

Aircraft grade aluminum ferrules with exterior leaf spring locking button provide a secure connection when attaching multiple poles or tool heads.

---

**HOW TO CHOOSE THE RIGHT POLE**

1. Select pole model based on application (table below)
2. Select configuration based on application (page 5)

Jameson Pole Models Can Be Used Together In A Variety Of Combinations - All Have Same Ferrules

www.SpartacoGroup.com
PUTTING IT TOGETHER

Customize Poles And Accessories

1. Choose your tool head (pruner, pole saw or accessory)
2. Attach tool head to pole’s female ferrule with adapter
3. For additional length, attach extension pole(s)

For highest performance and safety, Jameson recommends using a Base Pole when using one pole or starting with a Base Pole when working with multiple poles.

Base Pole - Jameson recommends starting with Base Pole
Extension Pole provides additional length, extending workable height.
Saw Head Pole is for use with Saw Blade.

POLE CONFIGURATIONS

BASE POLE
With rubber end cap and female ferrule provides solid foundation

EXTENSION POLE
With male & female ferrules for additional length

SAW HEAD POLE
With male ferrule and permanently mounted saw head for attaching saw blade

ADAPTER & FERRULE SYSTEM
Makes it easy to change from pruner head to pole saw head or pole lengths of 4’ to 12’. An exterior leaf spring locking button on ferrule offers a strong connection, whether attaching poles or tool heads.
This versatility saves time and money in the field.

SAW HEAD POLE SET UP
Use saw blade with Saw Head Pole or use Pole Saw Head (page 11) with Extension Pole.
Jameson recommends using Saw Head Poles with Base Poles.

www.SpartacoGroup.Com
JE FOAM CORE POLES

PREFERRED FOR AERIAL CONSTRUCTION & LINE CLEARANCE

Jameson’s original foam core pole is the highest quality fiberglass pole available.

- Foam core prevents debris and moisture build up inside pole and adds extra hoop strength and rigidity
- Polymer protective surface veil prevents fiber blooming at surface due to abrasion or ultra-violet light
- High visibility safety yellow color
- Meets requirements of OSHA Subpart R 1910.269(j)(1)(i):
  
  Individually tested to 100KV per foot for five minutes

Not A “Hot Stick” - Not For Use On Energized Lines

FG HOLLOW CORE POLES

PREFERRED FOR TREE TRIMMING AND AERIAL CONSTRUCTION

Jameson’s strongest and most popular pole is lighter than the JE series, offering greater control and exceptional bending strength.

- Polymer protective surface veil prevents fiber blooming at surface due to abrasion or ultra-violet light

Batch tested to 100KV per foot for five minutes.

Not A “Hot Stick” - Not For Use On Energized Lines

<table>

Wall Thickness: 0.110”
Pole Diameter: 1.25”
Weight: 2.6 Lbs
Based On 6’ Extension Pole

Wall Thickness: 0.125”
Pole Diameter: 1.25”
Weight: 2.4 Lbs
Based On 6’ Extension Pole
Jameson’s highest strength-to-weight ratio pole is lightweight and easy to control, making it ideal for tree trimming.

- Lighter weight results in less fatigue during extended work periods and easier handling
- Durable, high gloss enamel coating for long life, easy cleaning and fiber bloom prevention
- **Batch tested to 100KV per foot for five minutes**

*Not A “Hot Stick” - Not For Use On Energized Lines*

---

**BL HOLLOW CORE POLES**

**THE LIGHTWEIGHT OPTION FOR TREE TRIMMING**

**LS HOLLOW CORE POLES**

**THE CHOICE FOR LANDSCAPERS**

Economical pole for landscapers and homeowners.

- Lightweight, versatile.
- Polymer protective surface veil prevents fiber blooming at surface due to abrasion or ultra-violet light

*Not A “Hot Stick” - Not For Use On Energized Lines*
DOUBLE LOCK™ TELESCOPING POLES

SAVES SPACE - ADJUSTABLE HEIGHT

The leader in fiberglass poles brings you a high quality, lightweight telescoping pole that saves space and adjusts to fit your job.

• Double locks (internal lock and external cap) ensure poles will not collapse. Count on a secure connection at any length for maximum versatility and safety.
• Lightweight, durable fiberglass will not crimp under high stress like aluminum poles.
• Compact for easier climbing and storage.

Not A “Hot Stick” - Not For Use On Energized Lines
For safety, Jameson does not recommend attaching additional poles or Tru Shot to Telescoping Poles.
JA Pruners feature a removable upper spring pin and blade bolt for easy blade replacement and sharpening.

- Forged steel components for added strength
- Enhanced spring for smoother cutting action
- Raised hook edge reduces blade drag

JA SIDE-CUT PRUNERS
FOR PROFESSIONAL ARBORISTS

JA-14
Fixed Pulley Pruner
1.25” cutting capacity

JA-14S
Swivel Pulley Pruner
Swivel provides versatility in pull direction and more leverage with less pressure on pulley arm. 1.25” cutting capacity

JA-14DP
Double Pulley Pruner
Double pulley for additional leverage and significant reduction in required pulling force. 1.25” cutting capacity. Adapter included.

PH-14-PKG
JA-14 Pruner, Adapter & Rope

P-14-A
JA-14 Pruner & Adapter

PH-14S-PKG
JA-14S Pruner, Adapter & Rope

P-14-AS
JA-14S Pruner & Adapter

PHA-14
Adapter
Adapts JA-14, JA-14S or JA-34 Pruner To Pole

PR-20
Rope
Pruner Rope with Handle 5/16” X 20’

32-18
Pruner Blade Guard
Leather Guard for JA Pruners

JA-14DP-PKG
JA-14DP Pruner, Adapter & Rope

ROPE INSULATOR
PRI-7.5
7.5” Insulator
PRI-12
12” Insulator

Pruner Rope Insulator attaches to rope to break electrical current if rope contacts energized lines above insulator. Fiberglass tested to 100KV per foot for 5 minutes.

www.SpartacoGroup.Com
JA-34 BIG MOUTH SIDE-CUT PRUNERS

FOR PROFESSIONAL ARBORISTS

The Jameson Big Mouth Pruner has a 1.75” cutting capacity to handle larger limbs.

Like the JA-14 Pruners, the Big Mouth Pruners feature a removable upper spring pin and blade bolt for easy blade replacement and sharpening.

- Forged steel components for added strength
- Enhanced spring for smoother cutting action
- Raised hook edge reduces blade drag

JAI-34
Fixed Pulley Big Mouth Pruner
1.75” cutting capacity pruner

JAVA-34DP
Double Pulley Big Mouth Pruner
Big Mouth Pruner with double pulley for additional leverage and significant reduction in required pulling force. 1.75” cutting capacity. Adapter included.

PH-34-A
JA-34 Pruner & Adapter

PH-34-PKG
JA-34 Pruner, Adapter & Rope

PHA-34DP
Adapter
Replacement Adapter for JA-34DP Pruner. (Note: This pruner is sold with adapter)

SAW BLADES
FOR POLE SAWS & HANDSAWS

Jameson’s line of conventional 16” saw blades have long been an industry standard with telecommunication companies for line clearance.

Expanding our product line to meet the demands of professional arborists, Jameson introduced Barracuda™ Tri-Cut Saw Blades.

Hard-chrome plated with impulse hardened teeth, tri-cut blades provide a quicker, cleaner cut with less wear on the blade than traditional blades.

SB-13TE
13” Barracuda™ Tri-Cut Saw Blade

SB-16TE
16” Tri-Cut Saw Blade

SB-13TE-GUL
13” Barracuda™ Gullet Tri-Cut Blade

SB-16TE-GUL
16” Barracuda™ Gullet Tri-Cut Blade

SB-13TE-H
13” Barracuda™ Tri-Cut Saw Blade with Hook

SB-16TE-W
16” Barracuda™ Tri-Cut Mammoth Blade

Wider, thicker blade is more rigid than typical 16” blades. Does not fit hand saw.

SB-16TE-DH
16” Barracuda™ Tri-Cut Double Hook Blade

Sharpened upper hook prevents pulling out of cut and quickly removes suckers or vines. Sharpened lower hook scores bark below cut to prevent ripping damage to branch collar. Fits Jameson Pole Saw Heads. Does not fit hand saw handle.

SB-1C
16” Single Edge Chrome Blade

Fits PS-3FP Pole Saw Head

SB-1T
16” Single Edge Teflon Coated Blade

Fits PH-11 Pruner

SB-2
16” Single Edge Teflon Coated Blade

Fits PS-3 Pole Saw Head & PH-11 Pruner

SB-5U
SB-2 Blade with SB-UC Universal Adapter

Fits UA-1 Adapter to snap into pole ferrule

SB-UC
SB-UC attaches Saw Blade UA-1 Adapter. UA-1 Adapter snaps into pole’s ferrule to attach saw blade directly to pole.

SB-13TEU & SB-16TEU
Tri-Cut Saw Blade with SB-UC & UA-1 Adapters

SB-UC attaches Saw Blade UA-1 Adapter. UA-1 Adapter snaps into pole’s ferrule to attach saw blade directly to pole.
The Pole Saw Head snaps into Jameson pole ferrules and fits Jameson saw blades.

- Low profile design maneuvers easily in dense foliage.
- Convenient hook pulls loose limbs and branches free.

**Not For Use On Or Near Live Wires**

Snap Off Pole To Use As Hand Saw

HS-13TE-O
13” Tri-Cut Hand Saw

HS-13TE-HO
13” Tri-Cut Hook Blade Hand Saw

Hook prevents slipping off or pulling out of cut; pull small branches or vines.

HS-13TE-OS
13” Hand Saw with Leather Scabbard

HS-13TE-GUL-O
13” Tri-Cut Gullet Edge Hand Saw

Gullets allow chips and debris to exit cut.

HS-13TE-OB
13” Hand Saw with Rubber Belting Scabbard

HS-13TE-LPS
13” Hand Saw With Hard Plastic Scabbard

LS-36-2
Leg Straps (2) For Scabbard. Black Nylon With Velcro Closure, 1.5” x 36”

Designed for the professional arborist, hand saw offers exceptional cutting performance with scabbard options to secure on leg or saddle.

• Ergonomic rubber handle for comfortable grip

Tough plastic scabbard offers protection and convenience, especially when climbing.

• Roller at opening guides sawblade into scabbard

* Leg Straps Sold Separately
The latest addition to the Barracuda™ line is an 11-inch straight blade hand saw offers a more controlled cut when working in dense foliage. With its compact design, the popular folding hand saw with a tri-cut edge is ideal for climbing jobs. All hand saws feature Jameson Barracuda™ long-life impulse-hardened tri-cut teeth for a fast, clean cut.

**SB-8TE-FPKG**
8” Folding Saw with Nylon Sheath

**SB-8TE-F**
Folding Saw Only

**SB-8TE-FS**
Sheath Only for Folding Saw

8” Blade folds into metal handle with rubber grip. Thumb lock automatically engages when closed or extended. All rubber and metal design for superior durability. Lanyard line opening in handle. Available with nylon sheath that fastens to belt or carabiner.

# TREE TRIMMING KITS

## POPULAR COMBINATIONS OF POLES AND TOOLS

A variety of combinations make it easy to find the best fit for your tree trimming job. Adapters allow user to switch from pruner head or pole saw quickly and easily without tools, using the same pole. Kits are available with pole adapters or permanently mounted (fixed) tool heads.

LINE CLEARANCE KITS

FOR TRIMMING TREES IN AREAS NEAR POWER LINES

Pole and tool kits for tree work in the proximity of energized power lines.

Jameson Line Clearance Kits are ideal for Electrical Hazard Awareness Programs (EHAP).

JE Foam Core Fiberglass Poles and Rope Insulators are individually tested for dielectric strength at 100kV per foot for 5 minutes per ASTM F711 as referenced in OSHA paragraph 1910.269(j)(1)(i)

Not A “Hot Stick” - Not For Use On Energized Lines

JA-14 Pruner Line Clearance Kit
- Two 6’ JE Foam-Core Extension Poles
- One 6’ JE Foam-Core Base Pole
- JA-14 Single-Pulley Pruner With Quick-Change Adapter & Rope
- PS-3FP Saw Head Casting With Quick-Change Adapter
- Barracuda Tri-Cut 16” Saw Blade
- Leather Saw Scabbard
- 7.5” Fiberglass Rope Insulator
- Protective Vinyl Storage Bag

JA-34 Big Mouth Pruner Line Clearance Kit
- Two 6’ JE Foam-Core Extension Poles
- One 6’ JE Foam-Core Base Pole
- JA-34 Big Mouth Double-Pulley Pruner With Quick-Change Adapter & Rope
- PS-3FP Saw Head Casting With Quick-Change Adapter
- Barracuda Tri-Cut 16” Saw Blade
- Leather Saw Scabbard
- 7.5” Fiberglass Rope Insulator
- Protective Vinyl Storage Bag

WARNING

These tools should be used and serviced only by trained, competent personnel familiar with work methods and safety procedures characteristic of this industry. The fiberglass components of this product were tested per ASTM F711 prior to leaving the factory. However, moisture, dirt, damage and contamination can reduce insulating properties.

Always refer to www.osha.gov and follow all safety regulations related to your job
Always wear personal protective equipment as stated by OSHA
Always follow minimum approach distances as stated by OSHA when working near live lines
Always use a base pole when working with a single pole
Always use a base pole as your lowermost pole when working with multiple poles
B-6V
Pole & Pruner Bag
Heavy duty vinyl bag carries poles and protects them during transport or storage. Features four 6’ pole pockets, outside pruner head pocket and carrying straps.

32-70-C
Charcoal Hawkbill Knife
Polished, high carbon steel blade is ice-tempered for longer life. Ergonomic handle has an expanded end to protect hand from slipping. 8.5” total length, including 3” blade. Ideal for cutting root balls on plants or trees.

32-70-O
Orange Hawkbill Knife

HL-BP200
Hand Lopper
Conveniently pulls or lifts branches out of dense foliage. No adapter needed. Snaps into pole ferrule. Not for use on or near live wires.

WR-1
Limb Raiser

FG-6-3W
Limb Raiser & Pole Kit
- Two 6’ FG Extension Poles
- One 3’ FG Extension Pole
- One 6’ FG Base Pole
- Limb & Wire Raiser
### TREE TRIMMING ACCESSORIES

**TS-1**
**Tru Shot Head (No Poles)**

**TS-1-RP**
**Tru Shot Replacement Pouch & Tubing**

Launches throw bag and line over tree limbs, delivering line up to 150'.

For safety and effectiveness, we recommend using with two 4' Jameson poles or one 4' and one 6' pole, always starting with a Base Pole. Not for use with Telescoping Poles.

**FG-TS-KIT1**
**Tru Shot Kit with Poles**

- Tru Shot Head
- 4' FG Base Pole
- 4' FG Extension Pole

**FG-TS-KIT2**
**Tru Shot Kit with Poles, Throw Line & Throw Bags**

- Tru Shot Head, 4’ FG Base Pole & 4’ FG Extension Pole
- Throw Line (Dyneema® 1.75 mm x 180 ft., Orange)
- Throw Bags (10-oz. & 12-oz.)

**THROW LINE & BAGS**

High strength throw lines available in 100% Dyneema®, Poly/Dyneema® & Polyethylene

Throw bags feature high-visibility colors, metal ring for line attachment and web loop for carabiner attachment.

BUCKET MOUNT TOOL HOLDERS

SAFE, CONVENIENT STORAGE

Heavy duty bucket mount tool holders offer safe, convenient storage for bucket truck tools.

Water repellent and UV resistant, holders withstand extreme weather conditions.

Adjustable clamp bracket allows tool holder to fit any size bucket, with or without liner, and mounts inside or outside bucket.

**24-14A**
Chain Saw Scabbard
Fits standard and hydraulic pistol grip chain saws.

**24-14L**
Chain Saw Scabbard with Liner
Fits standard and hydraulic pistol grip chainsaws. Features a replaceable liner that protects scabbard from chain saw heat and blade.

**24-14LIN**
Replacement Liner for 24-14L

**24-18L**
Fiberglass Chain Saw Scabbard with Liner
High gloss gel coat finish to prevent fiberglass blooms and splinters. Replaceable liner. Fits standard and hydraulic pistol grip chain saws.

**24-18LIN**
Replacement Liner for 24-18L
Bucket Mount Tool Holders

Store Tools Outside the Bucket

24-19
Chain Saw Scabbard / Handsaw Holder

Handsaw holders on both sides for left-hand/right-hand convenience. Constructed of durable HDPE to protect against blade wear and extreme weather.

Supports Z133-2017: 5.2.13 Compliance

24-23
Long Reach Chain Saw Holder

Holds round and oval handled long reach chain saws and gas powered pole pruners (standard and telescoping) for telescoping boom trucks.

Fixed mount - not adjustable. 18” X 13”

www.SpartacoGroup.Com
BOOM MOUNT TOOL HOLDERS

STORE TOOLS OUTSIDE THE BUCKET

Safe, convenient tool storage on the boom for easy access and more room in the bucket. Made from high impact plastic, Jameson boom-mount tool holders can be strapped to round or square booms. Boom tool holders include Handle Unit and Strap with Ratchet to secure tool holder.

24-04
Hydraulic Pruner Holder
12" X 13"

24-04B
Replacement Pruner Box with Strap & Ratchet

24-02
Circular Saw Holder
Includes strap, ratchet & handle unit
12" x 9"

24-02B
Replacement Saw Box with Strap & Ratchet
Handle Unit Included With All Boom Mount Tool Holders

Ratchet strap fastens handle holder securely into a fixed position on the boom. Its rubberized coating prevents tool handle from sliding out of the upper holder box. Fits round and square booms.

24-03F
Long Reach Chainsaw Holder
Fits most long reach chain saws. Include straps, ratchets and handle unit. 32" X 5"

24-03GUARD
Boom Guard
Protects boom from saw damage. Mount on boom in front of tool holder to avoid damaging boom when inserting tool into holder. 32" X 5"

24-03SPACER
Spacer Block
Place between tool holder and boom to create 1" gap for boom security strap to pass through and secure. 5" x 5" x 1"

24-04R
Replacement Handle Unit (Handle, Strap & Ratchet)

24-08R
Handle Holder

24-09R
Nylon Strap with Ratchet

# HDI HEAVY DUTY ILLUMINATION

**LED Equipment Lights**

**Compact, Durable Equipment Lighting**
- Vibration resistance of 10-500Hz @ 5G rms
- Ingress (IP68) and environmental (IP69K) protection withstands pressure washing
- Durable die-cast aluminum housing
- Automotive optical grade, hard-coated polycarbonate lens resists scratches
- Hybrid spot-wide beam pattern suitable for all applications

---

BACK UP ALARMS

Work Safer Day And Night

BA-152051
LED Strobe Back Up Alarm

Applications: Dump Trucks, Trucks, Forklifts & Construction Vehicles

- 200 lumen amber LEDs for visual warning
- Night silent - Disengage alarm in sound sensitive areas. Flashing amber LED warning stays on to warn of vehicle presence
- 97 decibels @ 4’
- Wraparound flashing LED lens visible beyond 180° on either side

BA-151008
Back Up Alarm

Applications: Fleet Vehicles, Cars, Pick-Ups, Light Or Heavy Duty Vehicles, Tow Trucks & Heavy Equipment

- 97 decibels @ 4’
- Horizontal or vertical mounting
- Self-grounding studs eliminate potential corrosion points
