# Lighted Tape Lighted Cone Bar Barricade Tape Survey Flags

## Lighted Tape

Traditional caution tape is not reusable, and it won't always be seen at night. This lighted caution/danger tape is an innovative construction safety product that not only lights up for night time visibility but is also reinforced to withstand the elements and last for weeks on the jobsite.

- High visibility
- Weather resistant
- Durable
- Long run time
- 33-foot lighted caution tape

## Work Zone Safety

### Barricade Tape

Caution/danger tape is a relatively minor, yet important tool on the job site for construction and electrical work. Utility workers and construction contractors use caution tape to block off areas that may be dangerous to help protect the general public.

- High visibility
- Weatherproof & tear resistant
- All Purpose
- Meets OSHA 1910.144 for marking physical hazards.

### Lighted Cone Bar

Our Cone Bars convert traffic cones into a highly visible barricade in seconds!

- Orange/White Cone Bars form an instant barrier
- Highly portable, versatile and reusable
- Highly visible and reflective at night.
- Cones Sold Separately!

### Survey Flags

Marking flags have important uses in a number of industries. Most often, they help maintain safety on job sites.
